IMDb <https://tinyurl.com/2nwxfcjp>

Specialising in feature film + TV drama production sound

James mainly works as key boom operator for feature films, TV dramas, and commercials. He also works as a sound mixer on 2nd unit and pickup days etc. He is also happy to step into other production sound roles should the production need it e.g. music playback engineer.

James has 15 years experience working in TV and film sound departments and prides himself on being able to combine his production experience, creative skills (musician and DJ) and degree level technical knowledge (2:1 BSc with Hons – Audio/Music Technology) These faculties constitute a film maker that works in full sympathy with all cast and crew alike.

James owns his own recording equipment (see www.jaksound.com) in addition to all the other necessary tools of the trade to assist in recording i.e. trolleys and barrows, rubber backed carpets, boom boxes, boom poles, harnesses, rechargeable batteries, wet weather clothes and a repairs and maintenance tool kit.

James has considerable experience with the majority of production sound brands including: Sound devices, DPA, Schoeps, Sennheiser, Sanken, Aaton, Sound Devices, Zaxcom, Lectrosonics, Audio Ltd, Wisycom, Rycote, Cinela, Ambient and Panamic.

James owns a reliable and well-maintained vehicle and has a full driving licence and fully comprehensive insurance.
